## **DOMAINE JEAN ESPRIT**

CROZES HERMITAGE ESPRIT

### **THE STORY**

domaine esprit is a 15 ha family vineyard located ideally between 2 of the most famous and prestigious domaines and terroir in the appellation, domaine combier and domaine graillot. the terroir and style of wine is thus very similar, driven by drinkability, finesse and elegance. the reds are made from syrah, and whites from marsanne and roussanne. syrah, implanted in its original cradle, offers here a fine balance between the fruit and the tannins. red crozes-hermitage is a wine of elegance, balance and pleasure. whites have a beautiful golden color, fat in the mouth, floral and balanced. they also reveal a pretty nose of white flowers with a hint of nuts. the soil tipicity rests on rolled pebbles and gravels from different ices ages mixed with red clay and forming reliefs called plateaus and terraces. jean esprit started making wine in 2017 and is quickly becoming one of the rising stars of the area.
